Commanding Officer
Southern Division Naval Facilities Engineering Command
Post Office Box 190010
Charleston, South Carolina 29419-9010

Attention: Code 1857 - Mr. Dana Gaskins:

Dear Sir:

This letter is to update you on significant U.S. Geological Survey activities concerning the Jacksonville Naval Air Station project during January, 1996. The calibration of the OU3 subregional flow model was continued. Although not completely calibrated, the model presently shows good agreement between the measured and model derived data. A report was begun that will document the ground-water flow modeling at OU3. The current plan is to have a draft report ready by May 27, 1997. This is the date that ABB-ES expects to have the draft EE/CA report ready.

If you have any questions please do not hesitate to call me at (904) 942-9500 Ext. #3038.

Sincerely,
For the District Chief

Hal Davis
Hydrologist
